SUNSHINE IN THE SOUL

As flowers give out their sweetness through The sunshine after rain. So soothing words give comfort to A bosom in its pain.

There's sunshine on the other side, Though dark the clouds to-day, And fogs the flowery landscape hide, And birds have flown away.

Betimes the chilling storm will pass.
The howling tempest cease.
And o'er the fields of glistening grass.
Will shine the bow of peace.

When Jesus died the skies were rent;

On resurrection morn
New glory to the earth was lent.
And man to life was born.

The sweetest joy in all the earth His sunshine in the soul. A blessing of unmeasured worth No language can extol.

It gives a beauty to the face Reyond the reach of art. The smile of heavenly love, a grace That man can ne'er impart.

It wears that signet after death,
A grace forever given:
It fails not with the parting breath,
For, lo! it came from heaven.

In the eye that lights to meet us and the face that smiles to greet us Are the shadow of the future and the impress of

the past;
And the cheek that in its dawning flushed as rosy as the morning
Shows the outline of its beauty as it fades away at last.

And the little children's faces 'mid their dimples are the traces
Of the maiden's glowing beauty and of manhood's brow of care:
And the prophecy of gladness and the shadow of the sadness.
To the thoughtful eye that gazeth, are they lurking ever there.

But the faces that are nearest and the faces that are dearest.

Are the true, the tender faces that our trust and loving win;

Then, when comes to them the shading, when the roses shall be fading,

Like the vase, with light illumined, shall we see the soul within.

"How to make life worth living?"
The question haunts us every day;
It colors the first flush of sunrise.
It deepen's the twilight's last ray.
There is nothing that brings us a drearier pain
Than the thought. "We have lived, we are living,
in vain."

We need, each and all, to be needed.

To feel we have something to give
Toward soothing the moan of earth's hunger;
And we know that then only we live
When we feed one another as we have been fed
From the hand that gives body and spirit their
bread.

Our lives they are well worth the living
When we lose our small selves in the whole.
And feel the strong surges of being
Throb through us, one heart and one soul.
Eternity bears up each honest endeavor.
The life lost for love is life saved forever.

BERS SPECIALLY HONORED. THE LAST LUNCHEON FOR THE SEASON-AN

ELABORATE PROGRAMME FURNISHED-SEVERAL MEN GUESTS. At the last function of the season given by the

National Society of New-England Women, yester-day, at Delmonico's, Forty-fourth-st, and Fifthwa, the members from Connecticut and Rhode Island received special honor. The ballroom was a marvel of beauty and color, with hundreds of women in handsome spring gowns and hats. The table decorations were of unusual beauty. A long table at each side of the room was re-

served for the members from these two States and their guests. A miniature mill, representing the famous old landmark at Newport, occupied the centre of the Rhole Island table. The souvenir for Connecticut was a real nutmeg (not wooden). suspended from a silver pin by red and white ribbon, the society colors, and "Little Rhody" had for its emblem a turkey. Even the menu preserved the specialty of the day by furnishing the guests with nnecticut River shad and Rhode Island turkey.

Mrs. Allan T. Nye, chairman of the Luncheon Committee, was complimented upon the variety and unique character of the various luncheons of the season, but she in turn praised her helpful committee. The introduction of the press table, to which the representatives of the various newspapers were cordially invited to partake of the 'feast of good things," was an innovation. C. E. Quimby, chairman of the Press Committee, presided at this table yesterday.

The post-prandial exercises were many and varied The Rev. Dr. George Alexander gave a few words of greeting, in which he paid a high compliment to the character of New-England people. John C. Coleman gave the toast for Connecticut. She said she was weighed down with nine generations of Connecticut ancestors, besides the "Charter Oak" and Yale College. She exemplified the ex-cellence of citizenship in the old days by citing the case of a man who was "so great and good that it took all day to preach his funeral sermon." Some curious and amusing epitaphs were read, and in conjusion she paid a loving tribute to Harriet Beecher Stowe.

The response to the toast was admirably given Mrs. Sara Kinney, of New-Haven, State regent of the Daughters of the American Revolution. She claimed for the people of her State those qualities that have made them great and given them su-premacy along certain lines. With them originated the first fixed policy of Federal Government, af-terward incorporated into the Constitution of the United States, and she declared that one county has the reputation of being the birthplace of celebrated people than can be found in any other

## EARLY TEMPERANCE CRUSADE.

CARRIED ON BY WOMEN OF HILLSBORO, OHIO, LED BY MRS. THOMPSON.

One of the first wamen to give to the world the idea of a crusade against intemperance was Mrs. Eliza Jane Trimble Thompson, known widely as "Mother Thompson," now living at Hillsboro, Ohio,

at the advanced age of eighty-three.

Mrs. Thompson has not often appeared in public as a speaker of late years, but has not ceased to feel the keenest interest in the spread of the movement. The "Hillsboro crusade" may be traced to a lecture given on December 23, 1873, by Dr. Dio Lewis, who urged women to go into the saloons and pray. Mrs. Thompson did not hear the lecture but her young son and daughter who were presen brought back accounts that aroused her interest.

Dr. Lewis had urged the women to meet the next day and form some organization for visiting places where drink was sold. Mr. Thompson, who talked over the plan with his wife, did not at first approve of her joining the movement, but later said that she should make her decision alone. Mrs. Thomp-son was herself much in doubt as to what she ought to do or wished to do. The young daughter brought to her mother, while she was prayer-fully considering the question, the Bible open at Psalm exivi, and at the words, "This is the way, walk ye in it." which the girl said was ter and scrap-pictures from Mr. Hibbard; cancelled stamps, scrap-pictures and papers from Mrs. E. B. Story; patterns of crochetting and knitting, scrap-pictures and magazines from B. B. Totten; silk pieces and reading matter from S. S. Toungs; four bound books from Mrs. Joseph F. Knapp. Mrs. Knapp also contributed the following songs, the music of which was composed by her: "Nothing but Leaves," "Sabbath Closing Hymn, "A Happy Joyous Life," "The Bird Carol," "Open the Gates, "Dawn of Hope," "Our Habitation," "A New Leaf and "As Thy Days Thy Strength Shall Be." the line her eyes had fallen on when she opened the book. Her child's earnestness and the sacred words effaced all doubt from the mother's mind, and she went to the church and joined the women, who formed themselves into a visiting committee. Mrs. Thompson was chosen president, and after prayer and song she proposed going at once, in a procession, marching two by two, to begin their mission. This proposal was adopted, and several drug stores where drink was sold were visited, and the proprietors signed pledges. Later the visits to saloons were made, and the work went on from that time. During the recent convention at St. Paul, Minn., Mrs. Thompson was made life member of the Woman's Christian Temperance Union.

She is now devoting her time to literary work and living quietly in her native place. and she went to the church and joined the women,

A little three-year-old girl was given a peach. She disposed of everything but the stone, and then made known her predicament thus: "Mamma, I've eaten the cloth and I've eaten the meat, but what shall I do with the bone?"

In Bangor, Me., curfew rang for the first time a few nights ago, and was followed by a scampering home of all the young folks. Only one little girl was found out after 8 o'clock by the police, and she was allowed to proceed, being armed with a note, which read: "Mister Policeman, Sir: My girl Jenny ain't braking no law she is after pairogouric for little James plese parse besides if you don't my man will lick the stuffing out of you tewmorrow."

A wee maiden had the misfortune to fall downcontact with the wall. On being picked up and asked if she was hurt, she rubbed her arm for a moment and said. "No, but my elbow is awful dizzy."—(Union Signal.

There was a specially large attendance of the outof-town members and guests, and the tea proved delightfully social. The original portrait study of Lincoln (from life), by Frank B. Carpenter, was on exhibition, and added to the attractions of the afternoon.

ART OF LISTENING AND TALKING.

A clever writer has defined the difference between the charms of a young girl in society and that of a maturer woman to be in the manner each The real art of conversation is said to be nearly ost to this generation: it is confined, some tell us, to ejaculations alternated with rapidly uttered sengether enough to express the meaning which it is desired to convey. But the art of listening is even more rare than that of conversation. Some one has said that it is because there is to

much being done that no one has time to listen to any one clse.

Convent in Chicago, left Sacred Heart almost alone among the prominent Roman Catholic educational institutions, without an association to foster loving memories of their Alma Mater, and a temporary organization of the graduates was effected some weeks ago. After the preliminary meeting of the alumne a committee called upon the Mother Supelumne and the in the sacred Heart. She told them, it is reported that the members of the association have been forbidden to use either the name of the inheart situation of the name solected by them—Manhattenville Alumne. The reputation Mme. Récamfer won for "listenng divinely" is not to be gained, it is asserted, in not convey the idea of attention much more than to keep the giance averted. The down-dropped eyes, raised now and then to express the sympathy a narrative arouses, will win the dullest speaker to do his best. And should there be little worth listening to, a courteous attention will give even that little a value it would otherwise lack.

IT WILL SHELTER THE HOMELESS AND CARE FOR THE SICE.

Miss Clara Barton has been asked by President McKinley to return to Cuba and continue the relief work which the Red Cross was obliged to abandon while the government of the island was in the transition period.

The work will now be taken up with renewed vigor and carried on until the necessity for it ceases to exist. This service will be auxiliary to other relief work by the Government, and will be purely of a hospital nature—to shelter the homeless and care for the sick. Special provision is also to be made for the women and children, for whom heretofore no hospital has existed.

heretofore no hospital has existed.

It is also proposed to establish an institution where Americans who are taken seriously ill may receive needed care and attention. In order to carry out successfully its present mission to Cubathe Red Cross will depend entirely upon the generous support of the American people.

In addition to the necessary funds, medicines, delicate and wholesome food, suitable clothing for the unfortunate men, women and children, and bedding will be required. These necessaries will be collected, as heretofore, by the Red Cross auxiliaties in the various cities.

Dr. Samuel S. Partello, one of Miss Barton's trusted field agents, is just now in Chicago in the interests of the work, but will soon return to Cuba with a force of trained assistants.

The Red Cross of Philadelphia has enrolled among its list of nurses a Russian countess, who modestly signs herself Miss Elsa Trotsig. The story of her ministrations among the American soldiers is one of self-denial, unassuming work, hard-ships and excitements. Countess Trotalg belongs to a noble and wealthy Russian family.

DAY NURSERIES CONFERENCE. A local conference of people interested in day surseries, under the direction of the Association of New-York Day Nurseries, will be held in the Charlties Building on Wednesday, April 19, morning session at 11 o'clock and afternoon session at 2:30.
"Food and Diet" will be discussed in the morning, and papers will be read by J. Eugene Whitney, and papers will be read by J. Eugene Whitney, secretary of the People's University Extension Society, and by Dr. Carmatt, visiting physician of the Sunnyside Day Nursery. In the afternoon the subject will be "Neighborhood Work." Papers will be read by Miss Cornelia Bradford, of the Whittier House Settlement, Jersey City, the Rev. N. B. W. Gallimey, of Ciybourne Avenue Settlement, Chicago, and Mfss Soper, of the Neighborhood House, Boston, An invitation to attend the conference is extended to all who are interested in day nurseries and neighborhood work.

#### WILL STOP HORSE-BEATING.

An Anti-Crueity Society, composed of a number of prominent society women of Chicago and headed by Mrs. Theodore Thomas, has just been organized for the purpose of co-operating with and sup-plementing the work of the Illinois Humane Society. Mayor Harrison and Chief of Police Kipley have recognized the society officially. As a result the members of the police force have been instructed to give their individual assistance to the society and to recognize all requests of its members, each of whom will display when necessary a small star bearing the initials of the society and the words, "Authorized police call."

The first work of the society will be to stop horse-beating at bridge approaches.

### A CEMETERY FOR PETS.

LAND BOUGHT AT COXSACKIE FOR THE BURIAL OF FIDO, TABBY AND BUNNY.

William Shakespeare wro'e that every dog would have his day. He didn't say anything about Tabby and Polly and Bunn; possibly he thought the term general enough. There are some persons who would be quite as well satisfied if poor doggle didn't have what was due him. On the other hand, dear old Mother Hubbard wore out a good deal of shoe-leather going to and fro in the vain effort to satisfy him. Doggie is a faithful friend when he is a friend, and he has been a long time getting what was coming to him. Think of his heroism: The story-books are full of his deeds. But does he get a medal for his bravery? Does the laurel crown his shaggy head, or the wine cup cheer and toast him at a feast given in his honor?

And when he passes to the land where all good doggies go, is he carried to his last resting-place with honors and a brass band? His end is more likely to be an obscure corner in a vacant lot among tomato cans and refuse.

among tomato cans and refuse.

But this is to be changed. After centuries of neglect Fido and Tray are to find rest in a proper burying-ground.

The Dell Wood National Cemetery Association has just been formed, and one hundred or more acres of land have been bought at Coxsackle, to be used as a burying-ground for pet dogs, horses, birds and cats. In fact, no kind of biped or quadruped is to be excluded, and even creeping things may be admitted, provided they have ceased to creep and have been pets in the households of the members.

The idea of such a cemetery, it is thought, will appeal to many persons who have heretofore been in a quandary as to the disposal of their dead pets. There are few persons who have ever lost a pet dog or horse who will not acknowledge grief at the loss. Instances are by no means uncommon in which such animals have been buried in the family plot.

The Dell Wood Cemetery is to be conducted on

plot. The Dell Wood Cemetery is to be conducted on the lawn system. Plots are to be sold, varying in size and price, so as to make them available to persons of large or small means. The various lots will be separated by flower beds, and willow and cypress trees will nod above the graves. A professional undertaker will have charge of the arrangements for burial, which will include embalming when the owners desire it. A vault will be built for use in winter, when the ground is prozen.

The officers of the association are W. D. Lane, of Troy, president: Dr. J. E. Thomson, of Rutland, VI., vice-president: Edward Griffith, of New-York, secretary: C. E. Gardner, of Troy, treasurer, and C. H. Gould, of New-York, suditor. The directors are W. D. Lane, C. E. Gardner and J. W. Cravér, of Troy: Edward Griffith and C. H. Gould, of New-York, Dr. J. E. Thomson, of Rutland, Vt. W. Stewart, of Philadelphia: Edward Hull, Peoria, Ili, and W. R. Carey, of St. Paul.

The direct management is in the hands of an executive committee composed of Dr. J. E. Thomson, W. D. Lane and E. Hull.

The company's New-York office is to be at No. 4 Wall-st. Mr. Gould said yesterday that considerable interest is being manifested in the project, and there seemed to be no doubt of its success.

# TROUBLES AT SEOUL.

RUSSIAN INFLUENCE SAID TO BE RESPONSIBLE FOR THE CABINET CRISIS.

Tacoma. April 17.—Japanese advices state that the Cabinet crists in Seoul, marked by the trans-portation of two Ministers for terms of ten and fifteen years respectively, was due to the Emperor's favorite female attendant, Mile, Om. She has begun to think it time that she was settled in life, and many people indorse her view, for with Sovereign and Court alike her power is great Sovereign and Court alike her power is great enough to make her favor worth propitiating. Russia, as a matter of course, gets the credit of heing mixed up in this new complication. She is said to have competedly enlisted Mile. Om's sympathy. When the Seoul Cabinet opposed the demands of the St. Petersburg Government in connection with whaling privileges for Russia's subjects, Mile. Om's intervention was solicited, and jects, Mile. Om's intervention was solicited, and the Ministers speedily found themselves without portfolios. Meanwhile it is stated that Pyong-Yang, Kun-San and San-Chin are to be opened to foreign trade from May 1.
